

9300 Series Multi-Gas Analyzer

CONCOA's Multi-Gas Analyzer is designed to monitor almost any binary gas mixture. This is ideal for a wide range of applications, such as metal fabrication, landfill, horticulture, brewing, and food processing applications. Coupled with the BlendMaster gas mixer, CONCOA offers a complete system that ensures long-term quality.

Advanced Features

- *Thermal Conductivity Detector*
No Moving Parts
Temperature Controlled Cell
- *Digital Readout*
- *Enhanced Visibility*
- *Internal Sample Pump*
Fast Response

Applications

Shielding Gases

H₂, CO₂, or O₂ balance inert

Heat Treating Atmosphere

Leak Detection

SF6 Blanketing

Materials

Enclosure

NEMA 12

Specifications

Accuracy

± 1% F. S.

Power Requirement

110 or 220 VAC (50-60 Hz)

Maximum Inlet Pressure

125 psi

Sample Pump Rate

.5 to .9 LPM

Ordering Information
